

ALPHA Pad[®]

*A revolutionary new enrichment bedding from the people who brought you
ALPHA-dri*

Environmental enrichment

ALPHA Pad's appeal to rodents' natural behavior of nest building. Its long cotton fibers allow for easy shredding and manipulation.

Unparalleled cleanliness

ALPHA Pad's are manufactured from 100% bleached cotton staple fibers to exacting standards.

Low dust levels

Extremely long, 100% cotton staple fibers eliminate the potential for airborne dust after shredding.

Economical

The sheets are cut to size to fit standard shoe-box cages, allowing for quick and easy cage filling and dumping. This allows for better use of valuable labor resources.

Exceptional absorbency

Shredded ALPHA Pad's will absorb nearly 20 times their own weight, which helps keep the animals clean and dry for several days.

Availability

ALPHA Pad's are available in several different forms. Standard sheets are 6 x 10 in sealed poly bags at 50 sheets per bag. Each bag is packaged into a carton of 400 sheets.

Autoclavable

Reduced storage

One small carton of ALPHA Pad's will bed the same quantity of cages as four bags of bedding.

Codes and sizes:

1034022 Alpha-pad Mouse 6 x 10 (400)

1034023 Alpha-pad Rat 7 x 16 (250)
